

# Luciano Ayala: Bridging Magento Excellence with DevOps & AI Innovation

Luciano Ayala is an accomplished Adobe Magento Full Stack Developer and DevOps Engineer with over a decade of experience, combining deep Magento architecture knowledge with modern cloud automation and cutting-edge AI workflows to deliver high-performance eCommerce solutions for global brands.

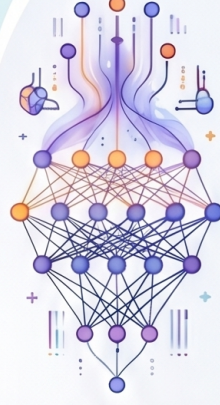

## Magento & Full-Stack Mastery

Expert in Magento 2 Cloud, Enterprise, and M1-to-M2 migrations using PHP, React, and Vue.js.

## Enterprise-Scale Cloud DevOps

Manages resilient infrastructures on AWS and GCP using Docker Swarm, Kubernetes, and Terraform.

## AI & LLM Implementation

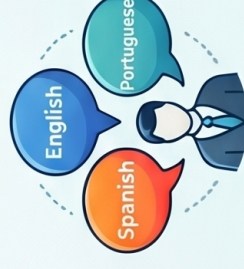

Deploys private AI infrastructure and multi-agent systems to accelerate development and automate monitoring.

## Leadership & Global Impact

## High-Impact Global Projects

Led major initiatives for The Walt Disney Company, HP LATAM, and BioIQ/LetsGetChecked.

## Strategic Solutions Architect

Focuses on cost reduction, scalability, and security audits for large-scale corporate Magento operations.

## Multilingual Team Lead

Fluent in English, Spanish, and Portuguese with 5+ years leading diverse international teams.
